Vaupes Rio Macuna

Path between Isula – Macaya April 1-7. 1943

5350 Small tree. Fl. white, no odour. Magnoliaceae? 5m. tall.

5351 Herrania. Treelet 12 ft. tall, basal diam 2". Bark slightly rough, black with greyish spots. Fl. very numerous. Blood red, sepals yellowed with whitish spots. Fascicles many flowered. Leaves glabrous. Photos.

5352 Hevea rigidifolia or marginata seringa blanca. Bark thin, smooth, mottled brown-grey. Basal diam. 2 ft. Trunk columnar, no exposed roots. Latex white. 90-100 ft. tall. Leaflets erect, well drained soil, slopes. laterite gravel

5353 Hevea "seringa amarella" Bark thin, smooth, mottled grey-brown. Basal diam 2 ft. Trunk columnar, no exposed roots 90-110 ft. tall. Latex light yellow, abundant. Photo with Hector. Leaflets flattened horizontal, not erect. Well drained soil. lot gravel.

5354 Hevea rigidifolia or marginata
seringa blanca 7 lowns. 1 fruit. Tree
80 ft. tall, basal diam. 2 ft. Bark. grey-
brown, smooth, thin. Abundant white
latex. Fl. cream white, odourless. Leaflets
erect.

5355 Hevea rigidifolia? or marginata
Seringa blanca. Fl. Tree 80-90 ft. tall,
columnar, 2 ft. basal diam. Bark grey.
thin. Abundant white latex. Fl. cream-
white, odourless. Leaflets erect

5356 Medium tree, Fl. caulifl. Trunk 8" base adulterato. cauma
drain. Bark very rough, thick, grey-
black. Tree 30 ft. tall. Fl. lavender,
odourless. Leguminosae Good med for heartburn
must be taken hot Khayona decoction lvs.
Rhigospira quadrangulara (Mull-Arg) Mkra

5357 Slender tree. "Palo de Leche". 50 ft.
~~Hecounia Duckei~~ Fruit different from
"Duckei" from the Amazonas. Very abun-
dant, thick white latex similar to but not
"Jansoco". Bark thin, smooth, with
black-grey patches. Basal diam 1-1½ ft.
"Carne morado" 2" Vean del Cuento

path S from Vaupé above Pto Vaupé

Path between Vaupes + Takuna

April 10 – 17

5358 Palicourea. Fl. yellow. Small tree.

5359 Herrania. 12–14 ft. Basal diam. 2". Bark smooth, brown with black spots. Flowers scarlet, bloom. Sepals lighter with white spots. 1 fruit. Rind very thin. Caryota "Curata" Seeds roasted as medicine for stomachache.

5360 Small tree. Fl. yellow + red. Odourless. Decoction used as hot bath to kill lice. Kanpora

5361 Fl. yellow. Besleria. Shrub 6 ft. Use decoction against snakebite, plaster. "Maripimbara" Said to be poisonous by Caryota.

5362 "Matiguaja" Yeribá = Caryota Small bracket – 12 ft. Fl. white.

5363 Chamaedorea "Cubarri" Each leaf, 4 ft. long. Small bracket 8–10 ft. tall. Bactris (Dryand)

5364 Passiflora. Flo orange-red. Vine in forest.

5365 Couma "Juansoco." tree. 90–110 ft tall, 3 ft. basal diam. Very abundant white latex. Bark thin, mottled grey-black, fragile or brittle. Very abundant in poorly drained land. Leaves new. Wooses leaves in Febr. to bear fruits. "Bichury" Caripona "Ba-hó'ka"

5366 "Cacao blanco". 12–15 ft. Basal diam. 3". Fruit whitish. ! ft. white.

5367 Bromeliad. Bracts red. Fl. inside are white. Epiphytic.

5368 Castilla. "Caucho negro" Diam. 4 ft. Bark: rough, light yellow grey. Wood soft. Tree 130 ft. Abundant white latex. Sterile. latex for wounds Castilla Ulei

5369 Large tree. "Caimito" Very abundant black bark-like. Basally 5–6 ft. white Well drained soil. 90 ft. tall. latex Leaf brown beneath. Sapotaceae.

5370 Hevea lutea (?)
Sernga amarilla 2 ft diam
Bark smooth, brownish. 100 ft. tall.
Fl. cream yellow. Abund. white latex.
Leaflets spread, not erect.

~~Miraflores, Rio Vaupes, April 20~~

5371 ~~Sapium~~ ? Flowers yellow
Odorless. Vaupes Indians reduce bloody stools with tea of leaves.
Settlers make strong infusion of bark to wash sores with pus.

5372 Couma macrocarpa Wauge tree,
basal diam 2½ ft. 100 ft. tall. Fruits greenish, turning yellow when ripe, edible. Abundant white latex.
Bark thin, scored, grey-black.

5373 Sarrapia. Spreading tree 40 ft tall, diam. at base 1 ft. Flowers spicy-aromatic, white with purplish tinges on edges of petals. Seed used for soap perfumery.

5374 Small bush in forest. Fruit yellow.
